UNITED STATES PATENT OFFICE.

MILLER TOOL & MFG. CO., OF DETROIT, MICHIGAN.

TRADE-MARK FOR CERTAIN SERVICE TOOLS USED IN REPAIRING AUTOMOBILES.

ACT OF FEBRUARY 20, 1905.

Application filed December 3, 1921. Serial No. 156,231.

STATEMENT.

To all whom it may concern:

Be it known that the MILLER TOOL & MFG. Co., a corporation duly organized under the laws of the State of Michigan, and located in the city of Detroit, county of Wayne, State of Michigan, and doing business at #1725 Sixteenth St., in said city, has adopted and used the trade-mark shown in the accompanying drawing, for service tools used in repairing automobiles, comprising disk-clutch spring compressors, pinion pullers, cylinder-lapping tools, camshaft thrust-block pullers, fixtures for removing cone-clutch shaft-front bearings, crank-shaft and connecting-rod bearing shim filing blocks, universal-joint front-yoke pullers, rear-axle stands, front-axle stands, spring shackle-bolt grease guns, engine repair and test stands, inner and outer brake-adjusting fixtures, engine-lifting attachments, gasoline and oil line flanging tools, feelers, socket-wrench kits, plain braces, dies and stocks, valve grinders, valve-spring holders, grabhooks for unloading cars, tork-tube tools for pulling bearing cups out of tork tubes, arbors for aligning pistons with connecting rods, tools for compressing springs on wind-shield pivots while starting nut, chain hoists, valve-refacing tools, bearing scrapers, fixtures for supporting front end of motors, universal

ratchet socket-wrench sets, long-nose side cutting pliers, large starting cranks, piston vises, front car-lifting bars, motor-lifting chain and ring nuts, motor-lifting ring nuts, brooches, connecting-rod and piston aligning fixtures, dollies for use when unloading automobiles from freight cars, cylinder-re-boring tools, gears, pullers, rawhide hammers, wrenches, wheel pullers, valve-seating tools, counterboring tools, tinnerns' snips, hack saws, valve-seat lapping braces, valve-spring compressors, valve-guide installing fixtures, drifts, drills, reamers, taper keys, cold chisels, plug taps, spark-plug hole taps, piston-ring expanders, bushing extractors, in Class #23, Cutlery, machinery, and tools, and parts thereof.

The trade-mark has been continuously used in the business of said corporation since on or about the first day of March, 1921.

The trade-mark is applied or affixed by attaching a plate containing the trade-mark to the tool.

No claim is made to the exclusive use of the words "Auto Service Tools" except in the connection and design shown.
